Re: Graphic Calculators in Year 10-12 Mathematics

Senior Secondary students undertaking Mathematics in Year 11 and 12 are required to use graphics calculators for several topics. It is recommended that students in Year 10 should purchase a graphics calculator to familiarise themselves with the technology and meet future course requirements.

SACE Board of SA have stipulated that only certain graphics calculators may be used, and we have selected the Casio fx-CG50AU as the graphics calculator to be used at Caritas College. All students are required to use the same brand of calculator. If you are considering purchasing a second-hand calculator or one used by an older sibling, please be aware that only the following Casio models are on the list approved by SACE:

Casio fx-9860G AU Plus

Casio fx-CG20 AU

Casio fx-CG50 AU

Families can purchase the Casio fx-CG50AU calculator from a retailer of their choice or alternatively place orders direct with Abacus Calculators. Orders placed before 29th January 2024 will be delivered to the school in bulk by the end of February and will not incur a delivery fee. The cost of the calculator is \$258.00, with a padded cover and 2 year repair/replacement warranty. Ordering instructions are attached.

Once your child has finished their schooling, we encourage that you sell on the calculator to another family.

Should you require any clarification please feel welcome to contact me at school.

Yours sincerely

Mrs Norah Grover
Year 10-12 Learning and Wellbeing Director

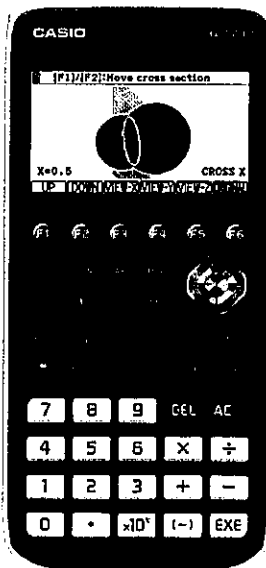

ONLINE STUDENT CALCULATOR ORDER FORM
